Dear Honorable Joel L. Blumenfeld:

I am writing this letter to you with regards to the situation surrounding Mr. Harry Dorviler, who is the owner of Harry's Nurses Registry.INC., Queens, New York. I am actively working for this company in the capacity of a Registered Nurse. My employment is being nothing less than fulfilling. This Nursing Agency has been providing unparalleled services; with the highest qualities, beyond expectation to clients within the communities and above. If there should be any interference in the management of this company, the continuity of care will be disrupted for clients who rely on this agency for services. Clients would have to start over with other agencies, not to mention endless paper work that is involved in transitioning. Therefore, I am asking for leniency of anyone who may be involved in any wrong doing that may question the reputation of this company. Your Honor, if there is any way to preserve this Nursing Agency, I am kindly asking for it to be done in order to continue to keep our clients happy.

Thank you in advance.

Sincerely,

Canava Haye
