

Ketie Dolce

I have been receiving care for my son Matthew through Harry's Nursing Registry for about 2 years. I find that this agency to be professional, compassionate, and reliable.

They have provided me with an exceptional nurse and Matthew is attached to her. My son has down syndrome ~~and~~ ^{AND} has renamed her Dora the Explorer, ~~ATV~~ his favorite TV character. Matthew is flourishing from her love and expertise. It would be devastating if we lost her now.

Harry's Nursing Registry assisted me in getting Matthew into the educational system. They have been very helpful for us.
